

NOTRE DAME LEPRECHAUN

The University of Notre Dame Leprechaun

Tryout Information

Updated: October 2025

STATEMENT OF PURPOSE

The Notre Dame Leprechaun is an extension of the cheerleading program, an athletic program supporting all athletics and realms of the University of Notre Dame. As a program, it is of utmost importance to support and foster educational success for each athlete. The program should help in the development of a responsible, mature, and well-rounded adult, both physically and mentally, as well as spiritually. Through the cheerleading and leprechaun programs, members will develop leadership skills, communication, teamwork, management, and the ability to adapt to new and evolving situations, all of which will foster personal growth.

As a Leprechaun at the University of Notre Dame, athletes are expected to enhance and/or create spirit among fans, students, the public, within the team, and all people they encounter. Representing the University in an honorable manner is expected at all times; on campus, during games, at practice, while visiting communities, whether locally or while traveling, on social media, and as an individual in all walks of life. This should be done by not only performing all cheerleading-related activities but also by graciously partaking in public service and interacting with fans and the public in a professional and welcoming manner.

LEPRECHAUN OPPORTUNITIES AND RESPONSIBILITIES

For the 2026-2027 academic year, there will be up to 4 students selected to portray the Leprechaun and represent the University of Notre Dame. Their responsibilities vary with their performance ability, seniority, and availability. The leprechaun represents Notre Dame Athletics at all football, men's and women's basketball, volleyball, men's and women's soccer, hockey, men's and women's lacrosse, softball, baseball, and additional events across campus and throughout the community.

RESOURCES

Resources provided to members of the program are athletic training, strength and conditioning, sports nutrition, sports psychology, approved class misses for travel, and priority scheduling.
